### Coronavirus Disease 2019 (COVID-19)

The Cal OES State Operations Center (SOC) activated 03/02/20 at 0700 hours in support of the California Department of Public Health (CDPH) Medical Health Coordination Center's (MHCC) statewide response to COVID-19. Cal OES will continue to provide resource coordination for the COVID-19 event, as well as situation status reporting and advance planning across multiple areas.

### **Situation Overview**

- **California State of Emergency Proclamation**

On 03/04/20, Governor Gavin Newsom declared a State of Emergency for California, as a result of the global COVID-19 outbreak that began in December 2019, to make additional resources available, formalize emergency actions already underway across multiple state agencies and departments, and help the state prepare for broader spread of COVID-19.

- **Global Health Advisory**

On 08/06/20, in close coordination with the U.S. Centers for Disease Control and Prevention (CDC), the Department of State lifted the Global Level 4 Health Advisory. The Global Advisory, initially put in place on 03/19/20, advised U.S. citizens to avoid all international travel due to the global impact of COVID-19. For more information visit: <https://www.state.gov/>.

- **State Executive Order N-33-20**

On 08/28/20, California introduced a blueprint for reducing COVID-19 in the state with revised criteria for loosening and tightening restrictions on activities by counties. Visit [Blueprint for a Safer Economy](#) for more information and to check the status of a county. This blueprint included a health equity metric to be used along with other metrics to determine a county's tier. The purpose of [Equity Metric](#) is to ensure California reopens its economy safely by reducing disease transmission in all communities.

### **Confirmed Global COVID-19 Cases – Per Worldometers COVID-19 Live Updates as of 01/14/21 at 1100 hours:**

- 93,089,754 (+648,000) total confirmed cases in 219 countries and territories.
- 1,993,180 (+13,846) total deaths.

### **Confirmed United States COVID-19 Case – Per Centers for Disease Control and Prevention (CDC) as of 01/14/21 at 1000 hours:**

- 22,965,957 (+225,815) total confirmed cases.
- 383,351 (+4,096) total deaths.

### **Confirmed California COVID-19 Cases - Per Medical Health Coordination Center as of 01/14/21 at 1100 hours:**

- 2,816,969 (+35,930) total confirmed cases.

# **WEATHER KEY POINTS**

**01/15/21 - 01/21/21**

## **Friday-Sunday**

- Critical fire weather conditions continuing due to gusty offshore winds and low humidity in southern California through Sunday
  - Strongest winds expected late this afternoon through Saturday morning
  - Wind gusts up to 50 mph are expected in prone locations
- Record high temperatures for many areas in southern California expected Friday, with moderate risk for heat related health impacts for those who are sensitive to heat
- Continued much above normal temperatures expected through the weekend in southern California, potentially creating some heat related concerns for those extremely sensitive to heat
- Otherwise dry conditions are expected for the entire state

## **Monday-Thursday**

- Additional period of critical fire weather conditions and potentially damaging winds, as a moderate to strong Santa Ana wind event is expected for southern California Monday, Tuesday, and possibly lingering into Wednesday
- Damaging winds, including to fire damaged/weakened trees, possible early next week as very strong winds are expected to develop across the Bay Area and northern Sierra by early Monday, and across the Sierra and eastern portions of the Central Valley Monday into Tuesday
- Cooler conditions with precipitation chances increasing across southern California by midweek
